

To whom it may concern:

I recommend Monica Reyes to obtain the Women of Influence award for 2016 for her work assisting, providing innovative programing for families and all ages and giving voice to Undocumented Iowans through DREAM Iowa and by providing financial education and services through Veridian Credit Union to hundreds of immigrants.

Monica has mobilized activists, musicians and artists around the state to support community events. She has connected many organizations to undocumented Iowans and has become the link for #Undoculowans for connecting to community services.

She has been featured in National and International media as a DREAMER and a state-wide leader throughout the political process and in representation of undocumented Iowans.

Monica is changing society in a positive way. She deserves the Women of Influence Award for this year.

Sincerely,
