

## 2018 Women of Influence Nomination

I have known Kim Bakey for about 20 years, when our companies came together under common ownership.

She is a terrific leader, and has been a trusted associate throughout her career. She leads by example – rolling up her sleeves to do whatever is needed. She expects much from herself and pushes others to continue improving. Kim doesn't easily take no for an answer.

Kim's leadership of a business with a very long history of family management has been respectful of that history while building upon its success. Her organization helps people realize the dream of home ownership through excellent knowledge and service.

She also takes time to be a leader in the community, as the current chair of the Blank Children's Hospital board of directors.

Kim Bakey is truly a Woman of Influence in everything she does and I am fortunate to work with her.

Sincerely,

Maureen E Sammon  
CEO & President  
HomeServices Lending, LLC.
