I would like to nominate Mike Macri, Ferguson Commercial Real Estate Services, as the CRE Professional of the Year for 2017.

Mike has been an integral part of the commercial real estate industry since he started back in 2002. Mike has done things in a way that no one else has even thought of. Mike's ability to think outside of the box has been a huge asset for him. He developed a way for cities to hire him as an economic development consultant at a fraction of what cities would need to pay a full time staff person. Plus, this enabled cities to get the expertise of someone in the real estate market who is on top of things happening at the moment.

I have had the opportunity to work with Mike over the years on different projects and his dedication is the highest. Whether it is a philanthropic endeavor or a business one, his ethical standard is the same – to take care of the client in the best way possible. This is why I nominate Mike Macri for the CRE Professional of the Year.

Respectfully,
