

GET TO KNOW *Newton*

January 11, 2016

It is my pleasure to recommend Nathan C. Unsworth as a nominee for the 2016 Forty Under 40 award.

As a City Council member in the City of Newton, I have had the opportunity to observe Nathan and to get to know him as a professional, community member and developing leader.

I am very impressed and respect Nathan in his professional role as Administrative Superintendent leading the efforts of Parks and Grounds in the Newton Public Works Department. His leadership, enthusiasm, professionalism and presentation on behalf of his department are demonstrations of quality work, demonstration of caring for the Community and strength of his interpersonal skills.

Nathan strives to develop his professional skills by taking initiative to become a Certified Public Manager, pursuing his Masters in Administration to be completed in 2017. His ability to focus on future professional development while maintaining his full-time position and balancing his life with community involvement is a continuing example of his dedication to individual well-rounded development.

Noted in his resume are several awards for service and project outcomes - all outstanding. Also noted in his resume are Nathan's continued active involvement in Civic Leadership - all outstanding and diverse.

Nathan's professional work, recognition for his achievements, membership and leadership involvement all are the ingredients of a developing and future leader and deserving of this recognition.

It is without hesitation or reservation that I totally support this nomination.
