I have known Rebecca for the past four years. Her passion and eagerness for her career has been wonderful to observe and be a part of. She has added a new sense of energy to my own business and has been a wonderful addition to the team. Her positive attitude, creative thinking, and work ethic have been very instrumental in the growth of our business.

She sincerely believes in helping to make a difference in her clients' lives. Based on comments I have heard from her clients, she is successful in this regard.

Rebecca does a wonderful job managing her time so that in addition to her career with Wells Fargo Advisors, she participates in community, church, and educational activities while still being able to have quality time with her family.

These are the types of traits I believe the Forty under 40 award is designed to recognize.

Sincerely,
