To Whom it May Concern,

This is a letter of recommendation for Suzanne Hull as you consider her for the 2014 class of the 40 under 40.

I've known Suzanne for many years and watched her evolve both as a professional and community leader. As a small business owner, Suzanne serves her clients with great integrity, always delivering more than is asked or expected. She calls upon her many years of experience in sales, marketing and business to lead her clients to greater successes and perhaps even more important – being more fulfilled.

Suzanne's service does not stop there. She also uses her experiences to help others in the community. When she found her self unemployed, rather than wallow in that struggle, she opened up her heart and expertise to create networking venues and other resources to not only help herself but to help an entire community of professionals looking for their next opportunity.

She breathed life back into the Social Media Club of Des Moines, revitalizing it when it started to falter by stepping in and serving as President. She also shares her expertise with the Urbandale Chamber of Commerce as a member of their genYP Leadership Committee.

Suzanne has proven that she's willing to go the extra mile for her clients and her community. I think she's an excellent example of how young people are shaping and improving Des Moines and would be an excellent addition to the 40 under 40 legacy.

Best,

Drew McLellan
