

Grinnell students make a conscious **CHOICE** to design their own academic program, to join a welcoming **COMMUNITY**, to **ENGAGE** their passions, and to seek every **OPPORTUNITY** to achieve their goals.

Our individually advised curriculum lets students choose their own unique sets of courses with the guidance of a faculty adviser. There's only one required course outside of the requirements to complete a major. That's because we believe the best education helps each individual build his or her own future.
